

## Invest in Confidence

**Rachael Ward-Bebe of Old Mornington Road Mt Eliza, operates a unique business where she specializes in Cosmetic Tattooing and CPL/Laser Services. While her business is predominately servicing clients on the peninsula she frequents 10 other salons in Melbourne offering them her combined services.**

The Cosmetic Tattooing part of the business has lead to a waiting list of 1 month and more! With these procedures they are able to naturally enhance your features (eyebrows, eyeliners and lip-liners) with amazing results that will last 3-5 years. "I am passionate about tattooing, and treat each procedure with the delicacy and precision that it requires. I am always mindful of my clients comfort and expectations - ladies like to remain quiet about their new procedure, and as it is so natural, you probably wouldn't know."

**Cosmetic tattooing is the ultimate investment for a renewal of confidence. Remember, symmetrically the more balanced and even the features of our face the more beautiful we appear!! All treatments are private and personal and these fabulous procedures will define an area of concern with a divine natural outcome.**

If you have...

poor eye sight / poor vision / allergies  
/ alopecia / unsteady hands / no time /  
undefined features or only a small amount of  
hair on your eyebrows

...then this is the answer!!

**CPL (controlled pulse Light)** targets concerns with your skin i.e. sun spots, capillaries, pigmentation or just generally dull, lifeless skin. Using light that converts to heat, the pigmented are of concern absorbs the light and after a few days disappears. These procedures are extremely quick, with only a very short period of possible minimal discomfort. The outcome after a couple of treatments is amazing.

All skin treatments receive free collagen treatments when she treats facial capillaries, sunspots and pigmentation.

Usually approx. 2-4 treatments are required to treat the area of concern and there will be a period of 5-7 days where you will need to conceal the treated area.

Of course, needless to say, **hair removal** is a major part of the business. You will love the results with hair removal. Get in early and start now for a hair free summer. Be sure your operator is well experienced and that they operate a medical grade machine (don't just chase prices with CPL/laser machines).

After 19 years of working in the industry with Estee Lauder, Lancome and managing beauty salons, Rachel Ward - Bebe still prides herself on her enormous continual dedication to always delivering results that are second to none.
