

## Laser Specialists at Medi Spa

**If you have unwanted facial or body hair and fancy never having to wax, shave or tweeze again or wish you didn't have to use so much makeup to cover unsightly broken capillaries and pigmentation, you should pay a visit to Marsha at Mornington Medi Spa.**

Marsha specializes in laser and their aesthetic application, having spent years at university training and qualifying to operate high-powered medical laser devices and paramedical equipment. And now with close to 20,000 laser procedures and 7 years experience in the laser industry you can rest assured that your skin is in safe hands.

"At Mornington Medi Spa we are dedicated to a holistic approach to skin care, corrective procedures and anti-aging treatments. Treatment programs are tailored to suit your individual needs." Says Marsha.

"Our clientele consists of both men and women who are not quite ready or interested in plastic surgery

but wanting a bit more than what beauty therapy can offer them."

If your skin or unwanted hairs have been bothering you don't wait any longer and find out what can be done. Mornington Medi Spa offer complimentary consultations.

*Mission Statement... With the use of medical grade/strength equipment/products and our training, qualifications and experience we endeavour to offer the very best in holistic paramedical skin procedures, with integrity and care.*

## All New, 'allyou' Team

...ready to prepare you for winter.

**Allyou facial clinic has a whole new team, qualified, experienced and ready to care for your every need as winter approaches.**

Winter is the perfect time to really have a good look at your skin. During summer we are constantly moisturising and protecting, and will avoid any treatments that deeply exfoliate or resurface the skin as there is a risk of sun damage, therefore the winter months allow us to confidently treat ourselves.

One client even wanted to take her home!

On another note, a lot of my clients have commented that they haven't had the inspiration to go shopping for a winter wardrobe yet, due to our ongoing milder climate. Well, I'm sure the icy fingers of winter will arrive soon, so if you haven't organised your wardrobe yet, remember that I can help you be completely styled and colour coordinated for less than the cost of a new outfit.

Exfoliation is actually a very important step in achieving younger, healthier looking skin, and can be achieved through a variety of methods, from loofahs, facial scrubs, microdermabrasion & chemical peels.

All of these treatments can be performed at allyou. Our newly appointed dermal therapist, Huma Baluch, (trained in aesthetic laser, microdermabrasion and chemical peel treatments) is ready to consult with clients to determine the appropriate method of treatment.

Naomi Patterson, (Advanced Beauty Therapist) also newly appointed, has been receiving tremendous compliments from our existing clients for her caring and special touch in performing all your traditional beauty treatments, including electrolysis.

Makeup selection is another important consideration to be able to capture the look for winter. If your foundation needs adjusting or the lipstick you have been wearing is for summer, then half an hour with me will set you on the right track.

At allyou we use Adonia mineral makeup, perfect and safe for applying immediately after any facial treatment, including peels, microdermabrasion or laser treatment.

**For enquiries or bookings on any of the services mentioned Telephone 58 755877.**

**We are open 6 days, including all day Saturday, and late some nights**

**.....Let us make you look and feel wonderful.**
