DRAW TO WIN A TRIP TO THE NZ SKI FIELDS!
IT'S OUR GOOD LIFE READERS' SPECIAL
OFFER FROM JEFF WIGNALL FORD
MORNINGTON & ROSEBUD!

New 2007 Focus TDCi Turbo Diesel

The Focus TDCi turbo diesel is the first diesel powered passenger car offered by Ford Australia. Designed in Germany, the TDCi features a highly advanced 2.0 litre turbo diesel engine which is considerably more fuel efficient and cleaner for the environment, compared with traditional petrol engines. Using the latest common-rail multi-point fuel injection technology, the TDCi not only saves you on fuel bills but you're guaranteed a silky, quiet driving experience that is a hallmark of all Focus models. And with up to 320Nm of torque, there's abundant power 'on tap' to easily traverse city streets or effortlessly cruise the highways. It's what you'd expect from the German engineered Focus. Smooth as. And with prices starting from \$27,990*, the TDCi is not only environment friendly, it's also budget friendly. Call and arrange your test drive, today.

This could be you!!

* Excludes \$2,440 stamp duty/dealer delivery, registration/CTP insurance extra. LMGT5040 JWF9952 JHAV
