Apart from the most popular labels such as Verge, Marco Polo, Banana Blue they have several new ranges - Kokomanna from Paris, Freewoman, Lisa Valli. Kondo, Obi. At Janne's they have worked hard to find ranges to suit the more voluptuous figure for casual and special occasions. All needs are catered for in a friendly casual atmosphere. Open 7 days.

## Head First into Spring

If you take your race season dressing seriously then gear up for a Spring shopping frenzy.

The boutiques are full of gorgeous fabrics and styles from bold prints to shiny metallics and it won't be hard to find some inspiration.

Trends from acid brights of Lime and Prussian Blue to solid blocks of strong color from the spectrum take the stage and whether you start with the shoes, bag or headwear there are many ways you can accessorize your outfit to perfection!

Overstated headwear is definitely bordering the theatrical and the simple femininely styled dresses are lending themselves to a bit of playful fun and fizz. Dress up your décolletage with a beautiful pronounced fabric and beaded corsage, restyle your favorite shoes or handbag with shoe or bag clips in matching fabrics and colors and let your imagination loose. Dare to 'bling' out some individual flare and be noticed head first this Spring.
