Introducing Amica's Trophy Winning Collection

This year's collection is a combination of iridescence and golden blonds, rich coppers complemented by highlights and lowlights.

Our styles are soft, unstructured and all about movement.

Award Winning Spring Styles at Amica

Award winning Amica Hair introduces Francesca Barron-Toop's latest collection for L'Oreal Colour Trophy 2007. Winning a highly commended award for the last three years consecutively, our collection invites shimmering luminescent colour that can be worn by the glamour conscious or the seriously street. Last year's collection has recently been published in Cosmopolitan's Hair&Beauty magazine and our men's hair trend for 2007 also published in American Crew's Face Off magazine. Our team are constantly evolving through education to bring the latest to you in cutting and colour techniques.

With Spring fast approaching Amica Hair has a range of services to get your hair ready for race day. Our new Original Diva temporary hair extensions are made from 100% human hair. They are easy to clip in and are totally reusable. They can be curled, straightened and washed just like your own hair. Diva extensions are available in a wide range of shades and lengths to either add a splash of colour or to instantly add length and volume. We colour, cut and personalize them to compliment your hair.

Exclusive to Amica is the new Kerastase Kerathermie service. This layered thermo ritual is the ultimate in Kerastase treatments. Formerly used in Brazil this service leaves tired, frizzy, rebellious hair highly nourished, relaxed & flexible for up to 4 weeks.

Amica and its new partner salon Blush Skin & Body will be working together to bring to you Spring Carnival packages to cater for hair and beauty needs. So come in and see our award winning team or call 97871050.
