

A Clients Story....

The Body Clinic is the Peninsula's newest Cosmetic Medicine Clinic and offers a potent weapon against fat and cellulite with its body contouring and face lift technology.

I'm here to be 'zapped' – after having a baby there's a bit of extra stomach that's proving hard to shift, so I'm hoping the machine will work its wonders on me. I'm ushered to a warm and comfortable treatment room where I lie down on the bed.

A small hand held apparatus is used to do the procedure, imparting a warm and pleasant sensation as it moves across my stomach. The machine works using the latest technology to penetrate into the fat layer on the body, heating it to a point where the stored fat simply melts and drains away, to be dispersed naturally by the body's own waste management system.

The whole process is easy, quick, painless and safe - similar to getting an ultrasound. While it's recommended to have between 5 and 7 sessions to get the full benefit, most people report improvements after only two treatments as the machine not only removes fat but also tightens skin, reduces stretchmarks, improving over all tone and texture.

After 15 minutes my session is complete and I'm free to get on with my day. The beauty of this treatment is that there are no uncomfortable after effects, needles or incisions so it's easy to do even with a busy schedule. Body clinic has a revolutionary new way to get rid of fat & cellulite without strenuous exercise, diets, painful liposuction or injections.

Body Clinic also offers other treatments, including age, sun spot and pigment reduction, spider vein zapping and tattoo removal using laser or IPL. Body Clinic uses CosMedix skin care products for intensive medical grade facial peels or you can relax and detox in the Colon Irrigation suite.

And how do I feel after my treatment? Well, it's only session number two and already my tummy bump appears smoother and flatter with improved skin tone. It really is true – you can zap your fat & wrinkles away! I'm excited. What will I do next – my face or thighs?!

Body Clinic is located at 2273 Pt Nepean Road, or call 03 5985 6655 for an appointment
