

Great Outdoor Ideas at Lintons

As the weather begins to get warmer and the days longer, Spring is always an exciting time for lovers of home entertaining and gardening, and Linton's great range of plants, pots, furniture, home wares and gift items is sure to impress and inspire.

Whether you are simply sprucing up your garden, trying to improve an outdoor entertaining area, or considering a total garden makeover, with an onsite Garden Design and Consultation Office, Lintons can help with any job, no matter what the size.

An activity for the whole family, gardening is an excellent way to get healthy and spend time together around the house before the hot weather sets in.

A perfect time to plant out summer's veggie patch, mow the lawn, spring clean your outdoor entertaining area and furniture, and make some colourful additions to your garden beds and borders. If you are interested in optimising the water usage in your garden, and have your garden looking great throughout summer, ask our qualified staff about our large range of water saving products, 'water wise' plants and water saving gardening tips.

The Café

Once you have wandered the beautiful surrounds of the nursery, sit and enjoy a delicious meal or a cup of coffee and cake at the recently refurbished Lintons Café. The fully licensed café has a fresh new look and menu, with experienced chef Manfred Mangl bringing a wealth of ideas from the Mediterranean using local and imported ingredients. Lintons Café is a wonderful meeting place for the regular and not so regular visitors to Lintons Garden & Home.

Open 7 days for breakfast, lunch & coffee.
