

PENINSULA

floors

Beautiful rugs are definitive to an area of a home. They can create a space within a space - a room within a room. Instant ambience.

Traditional hand woven rugs can be utilized anywhere within a home. Bright colourful rugs are never 'lost' even within the most minimalist environment.

Modern rugs such as leather, shag and retro rugs are popular alternatives, in colours of every

hue to match the décor of any home. Smart and attractive they come in different sizes that can 'break up' the flooring element at any time creating more colour and flavour.

Traditional hand made rugs become a talking point in any room and we are lucky to have on the Peninsula, various importers of rugs that have a 'story'!

So girls, for Spring add a rug to your home décor!
