

Carpet World stores are 100% Australian owned and operated. All their staff are highly trained in all areas of flooring and can offer you advice on what products are best suited to your needs. Carpet World are major stockists of all the leading brands of carpet available on today's market.

They also source carpet in the latest designs and colours from all over the world so you can be assured that when you visit a Carpet World store you will see the lot. If there is a particular flooring you have been unable to find, they will find it and if they can't they will make it.

About Oriental Rugs - in Mornington

Afghani Rugs in Mornington is a family owned business of hand-knotted oriental rugs. Their handmade rug collection is excellent and should suit all tastes, home decorators, collectors and astute investors.

Every piece is individually hand selected ranging from rare tribal, nomadic, village rugs to modern exquisite pieces which have been described as works of art.

Handmade rugs are well known as generational rugs because of their characteristics (Warp and Weft) which result in many years of service and beauty. Every authentic handmade rug, with its patterns, resembles a collection of messages, beliefs and symbols. They are

declarations of wish on which all expectations are enshrined.

Every pattern that is woven into a rug is a picture of a feeling, a desire or a wish. Every rug represents a living history from the early ages to the present in which Nomad men and women have patiently and untiringly written their joys and sorrows in amazing codes and magic letters which are read line by line - they contain voices of birds, gently blowing spring winds, flowers, leaves, branches, figures and wishes.

At Afghani Rugs they also have small pieces such as shawls, saddle bags, leather wallets and much more and professional rug washing, repair and restoration is available.
